EEE&M 2010 Show
St. Charles Convention Center
Wednesday, April 7th, 9:30AM – 11:00AM
Seminar Room 103

Op Amp Stability and Fixes

Any system that has gain is subject to stability issues. The basic conditions necessary for extended ringing and even sustained oscillation are connected with phase shift and gain. With information from the product data sheet with TINA simulation and bench tests a stable system can be realized.

To register for this seminar please contact Mike Long at Seltec Sales, 636-634-2210 or mike.long@seltec-sales.com
